### **1. Qualification**

A. The horse must be the product of a mating between a sire and dam both of which are registered in a Stud Book approved by the International Stud Book Committee, or must trace in all lines of its pedigree to horses so registered.

OR

B. The horse must be proved satisfactorily to have eight recorded crosses consecutively with horses in the category described in A above, including the cross of which it is the progeny.

C. Notwithstanding that a horse may qualify under A above, the Authority may have the right to refuse to record it in its Stud Book if the horse cannot be proved to have eight recorded crosses consecutively (including the cross of which it is the progeny) with horses in the category described in A or B above. Such refusal shall not be effective unless it is confirmed by the unanimous decision of the International Stud Book Committee.

### **2. Service to produce an eligible foal**

2.1 A foal is not eligible to be recorded in a Stud Book unless:

a) It is the product of a natural service or covering which is the physical mounting of a mare by a stallion. This natural service can, if the practice is authorized by the Authority of a country, include the immediate reinforcement of the stallion's service or cover by a portion of the ejaculate produced by that stallion during that service of that same mare.

b) A natural gestation took place in and delivery was from the body of the mare in which the foal was conceived.

2.2 The use of artificial insemination is absolutely forbidden and no foal conceived by artificial insemination can be recorded in a Stud Book.

### **3. Identity documents for broodmares and stallions**

Identity documents should be issued by the Stud Book/Recognized Turf Authority of a country in respect of each broodmare and stallion recorded in that country. The documents should identify the mare or stallion by giving at least the descriptive information on each horse.

### **4. Covering**

Particulars of the covering of a mare by a stallion must be certified by the stallion's proprietor or his duly appointed authorized agent on an official form (a covering certificate) certifying to the Authority and to the mare owner:

a) The first and last dates on which the mare was covered.

b) That the country of the mare was verified against her identity documents (alternatively, verification of the mare's identity may be undertaken by the Authority itself).

- c) That the service was natural in accordance with paragraph 2.1 of this section, and that artificial insemination was not used.

**5. Recording of foals**

  - a) The name of the mare, which produced the foal.
  - b) The name of the covering stallion responsible for the foal.

**6. Blood Typing/DNA – Parentage Verification**

- 6.1. In addition to the documentary evidence of a foal's parentage (as required by paragraphs 3, 4 and 5 of this section) the Authority requires further evidence by the use of parentage testing based on DNA.
- 6.2. If the Authority makes use of DNA it must ensure:
  - a) That the DNA is only undertaken by a laboratory appointed by the Authority for the purpose.
  - b) That the laboratory is affiliated to the International Society for Animal Genetics (I.S.A.G.) and participates in the comparison tests organized by that Society.
  - c) That all DNA details of all horses are kept confidential to the Authority and are not divulged except to another approved Stud Book Authority.
